B - Owens Corning
C - Restoration 1

D - Home Technology Geeks*
E - Veterans of Foreign Wars
(*other prize raffles to be announced)

What the Hail!

Due to the recent hailstorms in **Poinciana** and **Davenport** areas we suggest homeowners consider the following...

- Have you experienced any severe weather since your last roof inspection?
- Talk to your neighbors. Have they repaired or replaced their roofs due to hail damage?
- Look at your home's exterior. Search closely for dents and splatter marks around window mullions—these are indicators of possible roof damage.
- Call a professional. If you suspect hail damage - or if it has been over a year since you have had your roof inspected - it is time to have a licensed roofing contractor take a look.
- Prepare your home for the storms' arrival. Take a look around your yard and minimize flying debris. Have a household emergency plan, and be ready for severe weather and evacuation situations.

A property damage inspection by a licensed contractor can help secure your home against dangerous and costly roof problems.

Call Universal for a FREE property inspection today! 407-295-7403
